Inspired by 17th century Jacobean cabinetry, our **Rena Media Console** showcases big modern media with elegant vintage craftsmanship.

The case is hand crafted of solid acacia with intricately carved square-in-square details on the door and drawer fronts for rich depth and dimension. A dark walnut stain finish accentuates the heirloom look. Two double-door cabinets with antique brass pulls have one adjustable shelf each to house your media components. Two center storage drawers keep remotes and game controllers within easy reach, but out of sight. Eight beautifully turned baluster legs elevate your viewing experience to the perfect height.
